DEDICATIONS

George Anderson's Woodland Equipment Inc.

is proudly celebrating its 35th Anniversary this year. Back in 1980 in the Sage Hills West of Kamloops George started his company and it has grown into one of Western Canada's leading heavy equipment dealers.

There have been many ups and downs along the way through the good times and the bad, but Woodlands has continued to grow and now has branches in Vernon,

Prince George, Cranbrook and Fort St. John. George provides exceptional service to the forestry industry and credits a lot of his success to long term employees and a loyal customer base.

George is charming and witty and his motto is "We will never be the biggest but we work very hard to be the best".

He's a very generous supporter of Kaslo Logger Sports and we are thrilled to have him on board sponsoring the Canadian Championship Open Axe Throw this year.

Thanks so much George and Happy Anniversary.

Selkirk Wilderness Skiing

celebrated its
40th Year
of cat skiing
excellence

It's been four decades

since the little paper Pennywise was first published. FORTY YEARS AGO, Patty Axenroth, owner and publisher, had to figure out how to make a living so she could stay in this beautiful place. She almost decided to start a company baking and selling fruit pies. Picking paper over pastry was the best decision she made back in the summer of 1975. What began as a mimeographed 8 pager put together with scissors, paste and a typewriter on Patty's kitchen table, has become an integral part of the lives of anyone who has ever called a West Kootenay community home.

Celebrating 40 years in business is a great feeling, but the best part is knowing that it is a celebration of a 40 year conversation with all the amazing individuals and businesses we work and play with.

So whether you make pies, or sell kitchen tables, or harvest the trees to make the tables, here's to you!

Have a very happy May Days!

PS Grab a Kaslo Area Guide or Go & Do Visitor magazine while you're here... we make those too, now!
